Good morning,

Several asked if I would share if I received any information. Sherry Hammons of Girdler Elementary did share hers.

I also found some free ones on TPT that I have attached to this email.

Hi all,

As I have been going through books, I have a lot of questions that I feel like need clarification in order for me to properly pull what is needed for SB 150 and SB 5. I have attached a [google doc](#) where I am adding my questions w/ example books. I don't want to pull what is unnecessary, but also don't want to not follow the guidance.

I am not sure who would have the answers to these questions. Maybe Stephanie, you can clarify? Or perhaps we need to run them through Mr. Dexter?

I am including everyone on this email who was in our meeting Wednesday. Fellow librarians - feel free to add questions to this doc if you need.

Thanks,

Hey Danielle and All,

Steve Karsner and Mark will be meeting with Dexter and will take this document with questions. I will also include some books that others have asked about. I like your idea of weeding only what is necessary! We will give you an update on Wednesday afternoon.

For elementary, here are the two parts that would apply:

1. Children in grade five (5) and below do not receive any instruction through **curriculum or programs on human sexuality or sexually transmitted diseases**; (No books or materials) We will clarify with Stephen whether this applies to menstruation...Here is the KDE summary information that includes the health standard that was struck out due to the bill that might help clarify some, and it includes "puberty".

NOTE: The following grade 5 health standard no longer aligns with KRS 158.1415 as amended by SB 150 and should not be included in curriculum or instruction:

o 5.1.6. Describe basic male and female reproductive body parts and their functions as well as the physical, social and emotional changes that occur during puberty.

o KDE will begin standards review for Health and Physical Education, but until revised standards are approved and effective in law, the grade 5 health standard above should be omitted from local curriculum and instruction.

2. Any child, regardless of grade level, enrolled in the district does not receive any **instruction or presentation that has a goal or purpose of students studying or exploring gender identity, gender expression, or sexual orientation**; (law is explicit - No GOAL or PURPOSE of studying or exploring gender identity, gender expression, or gender orientation)

Sorry to bombard your inbox, but item four of the guidance touches on historical figures and such...It seems to me this would take care of some of your questions on biographies and such. You can read the full KDE guidance here:

Sorry to bombard your inbox, but item four of the guidance touches on historical figures and such...It seems to me this would take care of some of your questions on biographies and such. You can read the full KDE guidance here:

Hey Danielle and All,

Steve Karsner and Mark will be meeting with Dexter and will take this document with questions. I will also include some books that others have asked about. I like your idea of weeding only what is necessary! We will give you an update on Wednesday afternoon.

For elementary, here are the two parts that would apply:

1. Children in grade five (5) and below do not receive any instruction through **curriculum or programs on human sexuality or sexually transmitted diseases**; (No books or materials) We will clarify with Stephen whether this applies to menstruation...Here is the KDE summary information that includes the health standard that was struck out due to the bill that might help clarify some, and it includes "puberty".

NOTE: The following grade 5 health standard no longer aligns with KRS 158.1415 as amended by SB 150 and should not be included in curriculum or instruction:

o 5.1.6.Describe basic male and female reproductive body parts and their functions as well as the physical, social and emotional changes that occur during puberty.

o KDE will begin standards review for Health and Physical Education, but until revised standards are approved and effective in law, the grade 5 health standard above should be omitted from local curriculum and instruction.

2. Any child, regardless of grade level, enrolled in the district does not receive **any instruction or presentation that has a goal or purpose of students studying or exploring gender identity, gender expression, or sexual orientation**; (law is explicit - No GOAL or PURPOSE of studying or exploring gender identity, gender expression, or gender orientation)

Good Afternoon,

After meeting with Stephen Dexter this morning, I have responded to all the questions and summarized his responses. If you think I've missed something, Steve, chime in.

Senate Bill 150 Guidance via Board Attorney
SB 150 Questions & Clarifications

At this point, here are the steps to follow for "due diligence" and to comply with the law:

1. Pull any items that are in opposition to SB 150 or SB 5 based on the guidance from our board attorney.
2. After you pull them, "mark or track as weeded" in Destiny for your records and ours.
3. If you have questions, reach out to us or your Principal.
4. We have a reconsideration policy in the board policy manual. If a parent feels like there is an issue with an item, they can complete the form and submit it to the Principal for review.

I know this will be tedious, and I suggest prioritizing this work first, before completing your inventory in Destiny for your extended days.

As always, let me know if you have questions.

Happy Wednesday!

Stephanie,

I really appreciate you clarifying these things for us. This bill has caused me more stress this week than anything else in my professional career. Thanks for your work on this and helping us understand the law and what we are to do a bit better.

No problem!

I've just taken everything to our board attorney, as I didn't write the law, and wasn't even sure how much or little it would apply to libraries until a principal got questions from parents and a site based member. When dealing with laws and policies, we (our district) always looks to him for guidance. KSBA might have further guidance I. July too.

Just don't stress and do the best you can. As long as you do your due diligence it'll be fine.

Thanks and have a great weekend!
